

HELLEN LUNANI: GRANDDAUGHTER

I have been blessed to enjoy almost 3 decades of being Kuka's granddaughter. Kuka was a very present grandfather. He taught me so much and was very supportive in various aspects of my life. One of the fondest memories I shall cherish of Kuka was when he would punctually pick us up from school and take us home. Together with my grandmother they would ensure our holidays began in the very best way possible. Every day at exactly 6am he would wake us up to read the daily text and pray with and for us.

My grandfather set the standard for so many things in my life including my spirituality, education and day-to-day skills. I will really miss Kuka. I will most especially miss hearing his voice anytime I'd call and he would answer the phone by saying "ello my dear/koko/kuka".

We thank Jehovah for the promise of a wonderful future where we will get the chance of welcoming our loved ones whom we have lost in death (Isaiah 26:19) for then I will get the chance to welcome Kuka with the cake flavor that he really loved.
